2021 Heat Pump Rebate Program

Central Electric Cooperative (CEC) members can receive a \$150 rebate for the installation of an Energy Star rated heat pump. Current rebate program is for heat pumps installed Jan. 1, 2021 or later.

\$150 rebates are available for the following heat pumps:

Heat Pump Type	Qualifications
Air Source Heat Pump	HSPF \geq 8.5 and SEER \geq 15 and EER \geq 12
Ductless Mini-Split Heat Pump	HSPF \geq 8.5 and SEER \geq 15 and EER \geq 12.5
Geothermal Heat Pump	Must be Energy Star Certified

HSPF: Heating Seasonal Performance Factor; SEER: Seasonal Energy Efficiency Ratio; EER: Energy Efficiency Ratio

Members can verify a heat pump's qualifications by visiting www.ahridirectory.org and searching by the AHRI Certified Reference Number (certification number supplied by the installer) or the product's model number. Energy Star status of geothermal heat pumps can be verified at www.energystar.gov. Select "Product Finder" and search by category.

Program Requirements

- One heat pump rebate per account.
- Installation date must be Jan. 1, 2021 or after.
- Must be installed within CEC's service territory.
- Incomplete applications and documentation will not be processed.
- CEC reserves the right to inspect the member's home for installation of unit listed on the application. The rebate may not be issued if CEC cannot verify the information provided.
- After all program requirements are met, a rebate in the form of a check will be issued to the member. Please allow 6-8 weeks after the receipt of all documents for the check to be received.
